

JOHNNY BRAVO™

international style guide

With his oversize body and ego to match, **JOHNNY BRAVO**™ is the amiable hunk we can't help loving almost as much as he loves himself.

Naturally, a character of his supreme stature couldn't be captured in just one little style guide, so we proudly present this **JOHNNY BRAVO** international style guide supplement. Like all great cartoon characters, Johnny appeals to a diverse range of fans. This new guide presents designs intended for a more mature audience and secures Johnny's status as a modern pop-culture icon.

Here you'll find three sassy sections that reflect the personalities behind the pompadour: **Swinger**, a cool, cosmopolitan revival of '60s and '70s postmodernism; **Surf**, sporting a hip, Hawaiian beach feel; and **Rock Star**, a loud-and-proud celebration of the man, the muscle— the legend— that is **JOHNNY BRAVO**.

Within each section, we offer product suggestions to help spark your own creative concepts. The very last section provides animal patterns and generic backgrounds that can be incorporated with all other artwork in the guide. However, just as Johnny would never wear brown shoes with his black shirt, specific designs from different sections should never be used together.

This supplement also features fresh new twists on previous color palettes, logos, character poses, fonts and more. Follow these guidelines and you'll create a diverse product line guaranteed to have merchandisers and mature fans alike cheering, "BRAVO!"
